VALUE ADD CENTRE

- CNC technology: milling, drilling, slotting, pocketing and text
- General machining
- Custom enclosure solutions and assembly
- Custom insulated panel products
- Custom labelling, engraving, etching and printing

ELECTRICAL

- Cable management
- Cable accessories
- Enclosures
- Ducting
- Tooling
- Terminals
- Identification solutions
- DIN rail
- Storage systems
- Insulated panel
- Technical support
- Design solutions with CAD software

INDUSTRIAL

- POWER**
 - Surge protection devices
 - Power supplies
 - Industrial connectors
 - Relays
 - Optocouplers
 - Terminals
 - Field power
- SIGNAL**
 - Signal conditioners; configurable and alarmed
 - Alarms
 - Displays
 - Calibrators
- DATA**
 - Managed and unmanaged switches
 - Wireless ethernet modems
 - PoE switches
 - Industrial routers
 - Fibre and copper patching components
 - Complete range of industrial passive connectors
- AUTOMATION**
 - SmartRelays
 - Touch screens
 - Programmable Logic Controllers
 - Sensors
 - Motion control
 - Safety
 - Switching control

HAZARDOUS

- Junction boxes
- Control stations
- End panels
- Light fittings
- Receptacles and couplers
- Call points, beacons & sounders
- Hazardous rated adaptors and reducers
- Hazardous rated cable glands

TEST AND MEASURE

- Comprehensive range of instruments: Industrial, electronic, HVAC, process monitoring, energy and automotive
- World renowned brands known for quality and durability
- Tested and calibrated to an international standard IEC 61010
- Training packages and application sheets
- Technical support and solutions
- Apprentice packages and assistance

ENERGY

- Comprehensive range of cable accessory products
- Competent & respected track record in the electrical industrial, distribution and transmission industry
- Solutions gained from many years of local experience
- On site technical support from certified and experienced personnel
- Hands on training suited to customer needs
- Local kitting and bundling of termination and jointing kits
